THE K'LSIXLA OUTCAST

ARCHETYPE

For most families, the symbiotic link between blood and XLA either isn't there or has been in the family for a hundred generations. But miracles do happen. Once in a while, a child is born alien to blood parents. Unfortunately, your parents lived in a reclusive, all blood community. "That child is tainted. Either get rid of it or leave," was the choice they were given. Your parents didn't choose you. They left you in the wilderness, hoping that nature would take care of what they couldn't bring themselves to do. And it did! You were found and adopted by an orug tribe, who raised you. Now you are a young outrider struggling with an emotional bond of gratitude towards your tribe coupled with anger towards bloods and a longing for your own k'lsixla kind. It is time for you to go out and make peace with yourself and the world.

Special: You are a **palp alien**. Your bond is with a beginner cloud. Innate ability: **Roots (1)**. You are resistant to Poison but vulnerable to Acid. You have deep wrinkles everywhere.

ARCHETYPE BOON

Orug tribe membership-with the tattoos that prove it.
